

INFORMATION ON THE POLITICAL SCIENCE AND INTERNATIONAL RELATIONS BACHELOR DEGREE PROGRAM	
General Information	The aim of the Department of Political Science and International Relations is to provide the necessary conceptual framework and research capabilities in order to grasp the dynamics of interaction among actors within the national boundaries as well as actors at the global level. The target of the program is to examine the mechanisms of governing at the sub-state, state and global levels. It also examines the decision making mechanisms of the different actors. Besides, it tries to uncover the reasons why conflicts occur and how the durable peace can be achieved.
Program Purpose	The International Relations Master's Program aims to provide students with the knowledge and skills to enable them to analyze the interaction dynamics of both actors within national boundaries as well as global actors. The aims of this program is to analyze how sub-national, national and global level interactions develops; to examine different kinds of actors' decision-making mechanisms and to investigate under which conditions war and peace emerge.

Program : Political Science and International Relations			1	2	3	4	5	6	7	8	9	10	11	12	
Related NQF-HETR Core Field: Social and Behavioral Sciences (Academic) - Bachelor Degree															
INFORMATION	Theoretical - Factual	Possess advanced conceptual knowledge about the field in a way that will also take into account its reflection in practice.	X	X	X		X			X	X		X	X	
		Is able to comprehend the basic concepts in algebra, social and behavioral sciences, and is familiar with the relations between the concepts.	X	X									X		
		Has basic knowledge of the rules of conduct of people and inter-communal relations.	X		X		X			X	X				
		Has basic knowledge about the causes and consequences of the transformations that society has experienced.			X		X				X			X	
		Has knowledge of Social Research and Planning.				X		X	X				X		
		Has the theoretical and practical knowledge necessary to obtain information by processing data at an advanced level.				X		X							
SKILLS	Cognitive - Applied	Has the ability to analyze the theoretical knowledge of the field and to evaluate its reflection in practice.	X	X				X							
		Uses written and visual records to reach original sources of information in social and behavioral sciences.				X		X			X				
		Obtains information by working with the technical information about the field and has the ability to report and present this information with the technical equipment (computer environment etc.) required by the field.				X		X							
		Has the ability to use the knowledge of the field in decision making, decision making and behavior.			X						X				
		Has the ability to produce interdisciplinary interpretations and to have the ability to analyze and develop these skills by establishing relationships with sub-branches and other social sciences areas related to his / her field.												X	
CORE AREA QUALIFICATIONS	Ability to work independently and to take responsibility	Has the consciousness of fulfilling the duties and responsibilities it undertakes.	X	X	X	X		X	X						
		Solves a field-related issue either as a team or independently.				X			X						
		Is assigned responsibility on an individual level and as a team to solve any problems or problems that may be encountered in field practice and take initiative when necessary.				X			X						
		Plans the process and timing of their group membership researches to be carried out in the field and related sub-branches, fulfill the planned tasks in the desired scale and on time.				X							X		X
		Behaves about the necessities of social life, collecting with their attitudes and attitudes.									X	X			
	Learning Competence	Passes and evaluates the acquired knowledge about the field through the cause-effect and criticism filter.						X	X						
		Knows how to learn.				X		X	X						
		Determines the lack of knowledge and application about the field.				X		X	X						
		Shows the interest in the field and the desire to keep it alive.							X		X				
		Moves his / her education to an advanced level of education in the same field or to a profession at the same level.		X	X	X									
		Has the ability to share knowledge and learn together.				X			X						
		Gained lifelong learning and questioning consciousness.	X		X		X			X	X		X	X	
		Transfers his/her knowledge and skills in written and verbal manner.				X			X
