

INFORMATION ON THE ECONOMICS BACHELOR DEGREE PROGRAM	
General Information	The Department of Economics provides training in the framework of a program in which basic economic facts are taught as well as technical skills necessary for competent economic analysis. Our students learn the basic economic phenomena during their education, acquire the technical skills to do theoretical analysis and learn the most advanced econometric methods for data analysis theoretically and practically. They also gain experience by using at least two statistical programs extensively for econometric applications. Through our joint training program, our students acquire work experience in prestigious companies and institutions and graduate by learning a second foreign language other than English.
Program Purpose	The economic program aims to train individuals with the ability to make unique and competent economic analyzes by analyzing economic events and problems using technical methods. In addition to the theoretical education in this framework, a training is given to evaluate the current economic events through economic analysis methods and data analysis methods. The aim of the program is to educate individuals who can apply theoretical knowledge and methods to real economic problems and produce solutions. The Department of Economics aims that its graduates produce economical analyzes by using the most advanced econometric computer programs and sophisticated technical methods.
Degree Earned	Students who have successfully completed this program are entitled to receive a Bachelor of Science degree in Economics.
Level of Degree Earned	This program is a program that provides education at the undergraduate level (NQF-HETR 6. Level).
Requirements and Rules of the Degree Earned	To graduate from the department; Having received the total number of courses in the program and being successful. Having completed a minimum of 136 course credits and 257 ECTS credits from these courses. A weighted grade average of 2.00 and above over 4.00 is sought. (See TOBB Economy and Technology University Undergraduate Education and Examination Regulation, http://mevzuat.basbakanlik.gov.tr/Metin.Asp?MevzuatKod=8.5.15287&evzuatIlski=0&sourceXmlSearch=)
Registration Admission Requirements	Students are accepted with the TM-1 score from the central placement test.
Recognition of Prior Learning	Regulations and directives of TOBB Economy and Technology University (https://www.etu.edu.tr/en/page/mevzuat)

<p>Examinations, Assessment and Grading</p>	<p>Examinations, measurement and evaluation are conducted according to "TOBB Economics and Technology University Undergraduate Education (See TOBB Economy and Technology University Undergraduate Education and Examination Regulation, http://mevzuat.basbakanlik.gov.tr/Metin.Aspix?MevzuatKod=8.5.15287&MevzuatIlski=0&sourceXmlSearch=). The grade of the student is determined by the relevant teaching staff according to the results of the semester examinations, if any, and according to the results of the final examinations.</p>
<p>Teaching Style</p>	<p>Full time education</p>
<p>Graduation Requirements</p>	<p>Having received the total number of courses in the program and being successful. Having completed a minimum of 136 course credits and 257 ECTS credits from these courses. A weighted grade average of 2.00 and above over 4.00 is sought. (See TOBB Economy and Technology University Undergraduate Education and Examination Regulation, http://mevzuat.basbakanlik.gov.tr/Metin.Aspix?MevzuatKod=8.5.15287&evzuatIlski=0&sourceXmlSearch=)</p>
<p>Occupational Profiles of Graduated-Employment Opportunities</p>	<p>Our employees are working in national and international private institutions, finance, banking, service, energy, information and production fields, public institutions, ministries, senior institutions, economic consultancy companies and economic think tanks. We also have a large number of students who have an academic career. We also have entrepreneurial students who set up their own businesses.</p>
<p>Transition to a Upper Degree</p>	<p>Our graduates can pursue graduate studies if the graduates fulfill the entry requirements for the graduate programs.</p>
