| ECTS Credit                       | 6   |
| Prerequisites                     | None  |
| Course Content                    | Relying on what has he/she acquired with regard to International Legal Order (in the first part of International Law), the student is now elligible to learn substantive international law rules and purecedures to govern the different part and aspects international relations.  Therefore, as a matter of fact, the title of this course should - and one day must - be "Substantive International Law".  |
| The Aim of the Course             | The course aims at offering the student the capability to manage with the substantive legal principles and rules governing acots, activities and relations including international elements, and to intpret and apply them correctly to the specific cases which they meet during their professional life.  |
| Course Outcomes                   | The content of the course consists of legal norms and principles related to quite different substantive parts (branches) of international law. So, at the end of the course, the students should have reached to a point of recognizing and aptly using almost all the significant principles and rules on the one hand, and procedures and methods on the other hand, which address the main types of international relations currently considered as important. |
| Textbook and / or References      | Prof. Dr. Hüseyin Pazarcı, Uluslararası Hukuk, (en son baskı),  Papers, diagrams and other info-materials specifically prepared by the course instructor to help the students learn the subjects in a more profound way.  - Anthony Aust, Handbook of International Law, ed. 2, Cambridge: Cambridge University Press, 2010.  |
| Evaluation Criteria               | Percentage  |
