| Faculty / Institute | Faculty of Science and Literature |
| Department | Psychology |
| Course Code | PSİ 412 |
| Course title | Cross-Cultural Psychology |
| Instructional Language | English |
| Programs that can take the course | Psychology |
| Course Type | Elective |
| Course Level | Undergraduate |
| ECTS Credit | 6 |
| Prerequisites | PSİ 210 - Social Psychology |
| Course Content | A range of topics at the intersection of culture, migration and psychology will be examined. Durig the semester, we will explore, examine, and try to understand similarities and differences in behavior across cultures. On the other hand, we will discuss migration and migration-related social psychological topics. |
| The Aim of the Course | The aim of this course is to provide information about culture and its effect on human life. It is also among the objectives of the course to present the theories and relevant current research explaining the intercultural differences and their impact. |
| Course Outcomes | At the end of this course, students familiarize with the concept of culture and the subject of intercultural difference. They understand the relationship between psychology and culture, and critically |
| | examine the effects of culture on human life. |
